PROFESSIONAL SUMMARY

Technical Operations Manager in mobile gaming with hands-on experience driving LiveOps execution, operational workflows, data-based decision making, and internal tools optimization for large scale F2P LiveOPS titles (Dice Dreams). Skilled in configuration, feature rollout, promotion orchestration, release process, KPI monitoring and cross-team coordination with Product, Monetization, Game Ops and R&D. Strong technical mindset, automation oriented, and excellent at improving operational speed, eliminating manual work, and enabling faster iteration loops.

PROFESSIONAL EXPERIENCE

SuperPlay – Dice Dreams

October 2024 – Present | **Technical Operations Manager — SuperPlay | Dice Dreams**

- Execute LiveOps operations for Dice Dreams, supporting feature launches, event setup, promo configuration and economy experiments.
- Partner closely with Product, Monetization and Game Ops to optimize campaign workflows, A/B test setups, segmentation and growth strategy.
- Lead requirement definitions, create operational specs and collaborate with R&D to build scalable internal tools and remove repetitive processes.
- Perform RCA on operational issues, monitor KPIs, ensure smooth delivery and incident-free rollouts.
- Write clear documentation, release notes and internal guides to accelerate adoption across teams.
- Ideate new feature concepts & business value proposals: present to leadership for prioritization.
- Maintain strong operational discipline and integrity standards to ensure clean delivery pipelines, controlled configuration changes, and minimized operational risk.

Projects

- Inspector Pro (iOS) — building inspection app with photo capture, annotations, and Word/PDF export.
- Browser Games (GitHub) — developed interactive mini games using HTML/CSS/JS.
