PROFESSIONAL SUMMARY

Technical Operations Manager at SuperPlay, delivering LiveOps, feature launches and monetization campaigns for Dice Dreams. Design AI-powered automation tools and internal systems that improve operational efficiency while partnering closely with Product, Monetization and Engineering teams.

PROFESSIONAL EXPERIENCE

Technical Operations Manager

SuperPlay – Dice Dreams | Oct 2024 – Present

- Configure and launch LiveOps events, monetization campaigns, feature configurations and in-game offers for Dice Dreams, ensuring reliable execution in a live F2P environment.
- Partner with Product, Monetization, Economy, CRM, Analytics, QA and Engineering teams to deliver feature launches, A/B tests and player segmentation.
- Translate product requirements into production-ready game configurations while validating quality and release readiness.
- Analyze game KPIs and campaign performance to identify issues, support optimization efforts and improve player experience.
- Designed and built 15+ AI-powered automation tools, Google Apps Script solutions and internal dashboards that reduced manual work, improved QA validation and accelerated LiveOps execution.

SELECTED PROJECTS

Inspectley

Designed and developed an iOS inspection platform from concept to MVP, including product definition, user flows and reporting.

BlockQuest

Independently designing and developing a mobile puzzle battler in Unity. Responsible for gameplay systems, progression design, boss encounters, economy balancing, LiveOps-inspired features, retention mechanics and UX iteration while leveraging AI-assisted workflows throughout development.
