

Alon Iter

Technical Operations Manager | Mobile Gaming | Delivery, QA, Cross-Team Execution

054-4288272 | aloniter99@gmail.com | Tel Aviv , Israel | [Linkedin](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Technical Operations Manager in mobile gaming, experienced in coordinating fast-paced delivery across product, monetization, and development teams. Focused on improving execution reliability through structured workflows, QA validation processes, and clear cross-team communication. Also build internal tools, analytics dashboards, and prototype apps using AI-assisted workflows.

PROFESSIONAL EXPERIENCE

SuperPlay – Dice Dreams

October 2024 – Present | *Technical Operations Manager*

- Coordinate operational delivery for a live mobile game across Product, Monetization and R&D teams.
- Manage prioritization, timelines and release readiness for multiple parallel tasks.
- Maintain QA validation workflows to reduce production issues and improve release reliability.
- Write operational documentation, release notes and internal guides.
- Track operational KPIs after releases and coordinate follow-ups when anomalies appear.
- Improve recurring workflows to reduce operational bottlenecks.

Projects

- Inspector Pro – Inspection Reporting App: Built an inspection reporting app used by an engineering company to replace manual reporting workflows. Photo annotation, structured findings table and Word/PDF export.
- ICE Analytics – KPI Dashboard: Developed an internal KPI dashboard for ice.co.il to centralize performance tracking and reduce manual reporting.
- Game prototypes – Beat Runner & Merge Lab: Built browser-based game prototypes focused on gameplay experimentation and rapid iteration.
