

Alon Iter

Technical Operations Manager | LiveOps Execution, Back-Office Operations, QA & KPI Review

054-4288272 | aloniter99@gmail.com | Tel Aviv, Israel | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Technical Operations Manager in live mobile gaming with hands-on experience in LiveOps setup, back-office execution, QA validation, automation, KPI analysis, and launch support across Product, Monetization, QA, and R&D. I turn live plans into accurate configurations, stable releases, and clear follow-up.

PROFESSIONAL EXPERIENCE

SuperPlay - Dice Dreams

October 2024 - Present

Technical Operations Manager

- Run live promotions, campaigns, and feature setups through back-office tools, ensuring accurate execution.
- Handle weekly campaigns and A/B tests through setup, QA validation, rollout coordination, and follow-up.
- Configure pricing and player segmentation with Product, Monetization, and Economy teams, including SQL targeting and exclusions.
- Build 15+ internal scripts and tools for back-office workflows, QA checks, and operational efficiency.
- Support launches with Product, Monetization, Economy, QA, and developers, and improve internal LiveOps workflows.
- Review KPI and economy performance to flag issues, surface opportunities, and support optimization decisions.
- Participate in on-call live issue handling and fast troubleshooting to keep game operations stable.

SELECTED PROJECTS

- Lucky Tower - Designed a retention event concept with reward logic, KPI plan, and playable prototype.
- Merge Lab - Built a merge prototype with a live level editor and insights view for faster balancing.
- Draft21 - Built a snake-draft PWA that turns 21-player football team creation into a fast, fair flow.
- Inspector Pro - Shipped a workflow app used by a real company to replace a manual reporting flow.

EDUCATION

B.Sc. in Information Systems
The Academic College of Tel Aviv-Yaffo
Graduated July 2024
